

(a) 3

(b) SAT

(c) Left subtree is null, or empty, or does not exist;

Right subtree :

(d) IB, Huikao, TOEFL, SAT, ACT, SAT2

(e) Award [1 mark] for identifying each modification, up to [2 marks max].

Award an additional [2 marks max] for outlining how such modifications will permit access to the definition of each word.

The WordNode class could be modified to include a String variable.

The definition would be contained in the string.

The WordNode class could be modified to contain an integer that could then be used as an index to retrieve the definition from a file.
